--

**Luck:** A wizards Luck modifier applies to rolls for corruption and mercurial magic.

**Languages:** A wizard knows two additional languages for every point of Int modifier.

**Weapon training:** A wizard is trained in the use of the dagger, longbow, longsword, shortbow, short sword, and staff. Wizards rarely wear armor, as it hinders spellcasting.

**Magic:** Wizards cast spells by making a spell check. A wizard's spell check is usually 1d20 + intelligence modifier + level.

**Spellburn:** Wizards may sacrifice ability scores for bonuses to spell checks. For every ability point they expend, the wizard adds +1 to his spell check. Ability scores lost in this way return at a rate of 1 per day that spellburn has not been inflicted. Other sacrifices can also net casting bonuses, at a rate of +1 per 500gp.

**Corruption:** Low-level wizards are powerful. High-level wizards fear for their souls. Magical corruption results from natural 1s on spell checks, such as misfire and/or corruption. Corruption effects are permanent but modified by the wizard's luck score.
